Specification:

SEAT SHELL: Seat shell shall be a one-piece with ergonomically designed hour glass shape. Seat shall be constructed of an automotive grade Polypropylene. The thickness of polypropylene shall be 5/16" at seat and back and 1/4" at mounting ribs. Molded seat shell shall provide proper lumbar and high back shoulder support. Seventeen (17) reinforcement ribs shall be required for back support. The shell shall be attached to the frame with steel rivets underneath the seat, which shall offer no exposed hardware on the surface. Shell shall be available in at least eight (8) colors. Each chair shell shall have a label listing its conformance with California Bureau of Home Furnishings, Technical Bulletin 133, Flammability Test Procedures for Seating Furniture for Use in Public Occupancies.

FRAME: The lower portion of the frame shall be welded to two (2) 3" x 8-1/2" 12 gauge seat support plate. All steel frame parts shall be powder coated.

BASE: shall be star base with five (5) spoke high strength polymer with five dual 2" hooded swivel casters. The base shall carry lab foot ring.

WARRANTY: Chairs shall be provided with 15 year warranty.
